

**Product name :Fiber distribution box 16cores**  
**Product Number : EK0601-002**

## Application

Fiber distribution box provides high density wall-mounted or pole mounted solution for next generation networks, which aims to provide and manage fiber distribution in a limited space. It is designed to connect feeder/distribution cable to subscriber's drop cable using PLC splitter in FTTx networks. It has 2 input ports and 16 output ports on the bottom and it is easy to install on the wall or pole. The rear tray is for splicing a fiber of feeder cable with PLC splitter and the front tray is for connecting subscriber's drop cable through adaptor plate on the tray.

## Features

- Integrated splice cassette and cable management rods
- Fiber management with a reasonable bending radius control more than 40mm
- Suitable for fusion splice or mechanical splice
- Capacity 16 fibers (SC SX) or 24 fibers (LC DX)
- Can be installed 1x8 or 1x16 PLC splitter
- Efficient cable management
- Integrated snap-lock
- Wall and pole mountable
- 2 inlet ports ,16 ports for drop cable

## Technical specifications

Material	ABS/PC
Color	White or Gray
Operating temperature	-40°C to +85°C
IP Protection class	IP 52
Dimensions (LxWxH)	225x302x71(mm)
Weight	1.3kg
