

Product name :Termination Box -6cores

Product Number : EK0601-005B

Application

Termination box EK0601-005 is suitable to connect the drop cables to the raiser fibers splices. The termination box is for indoor wall Mounting or desktop type.

Features

- ※ The structure is innovative, designed in up-down bisection. Its installation is simple. By untightening one piece of fixing nut, it succeeds in opening the housing and it allows fiber cable and fiber pigtail to pass in and out in single side.
- ※ The housing is made of high strength polycarbonate plastic materials, which has mechanical strength, therefore it is reliable and long-lasting. It is of nice shape and beautiful appearance.
- ※ The tray is designed in SLIDE-IN-LOCK and its opening angle is above 90°. Therefore it is easy for installation and maintenance. The curved diameter meets with the international standard. The capacity of tray is 6-12 cores.
- ※ The elastic material is used to fix fiber pigtail. When the end of fiber pigtail can not be determined(it is not used for the moment), it is possible to wind fiber pigtail into clasp. Whenever it is needed, the active connector could be installed outside of the housing. Therefore it can connect termination equipment without connecting adapters.

Products description

The accessories provided with termination box: insulation tape, nylon tie, numbering paper.

Technical specifications

Material	ABS/PC
Color	White or Gray
Operating temperature	-40°C to +85°C
IP Protection class	IP 52
Dimensions (LxWxH)	198x112x45(mm)
Weight	0.4kg
